TRIP TO MT. VERNON. - In speaking of the late visit of the German Maennerchor of Baltimore to Washington, the Baltimore Sun says : "The programme of the visit, which included a reception, a trip on the steamer Vanderbilt to Glymont, and a series of musical performances at Glymont, was carried out faithfully, though a sevre thunder storm somewhat marred the pleasure of the trip from Washington down the Potomac. For a time the steamer was literally enveloped with atmosphere densely charged with electricity, and a few yards distant a thunderbolt was seen to strike into the river, causing a column of water to spurt upward at least twenty feet high, and adding a peculiarly interesting feature to thescene. The festivities at Glymont were in every respect delightful, and the evening was passed in perfect accord with the pleasant sur-

CORPORATION COURT. - Judge Lowe presiding .- Porter & Co. vs. Cross' executors; in chancery; exceptions to commissioner Chilton's report filed by defendant and cause continued. II. Smith and others vs. W. N. Berkley; in chancery; cause argued and decision reserved.

Dyer et al. vs. Davis et als. A. Drifus appeared in answer to a rule, and was ordered to

comply with terms of sale within ten days or property to be resold at his expense. The Judge wanted a further extension of ten days' stay of execution in the case of Swain vs. the Hydraulion Fire Engine Company in order that the plaintiff may hear from his petition to the Court of Appeals for a supercedeas.

the work house, was recommitted. The case of Thomas Downey for violating the Sunday law, was continued. John Gray, for striking a colored man named John Robinson, was fined and discharged.

MAGISTRATE'S OFFICE. - Justice White :-Matilda Jones, for assaulting and beating Isabella Jones, both colored, was bound over to keep the peace.

NIGHT REPORT.-Night dark and cloudy As usual there were no disturbances, and the streets preserved their accustomed quietness. Two prisoners were at the station house.

THE NEW MARKET HOUSE. - The scaffold ing has been partially removed from the new Market House, and some idea of the appearance that building will present when completed can now be obtained by a Royal street view. The brick layers will, it is said, next week commence the erection of the additional stories for Washington Lodge, on Cameron street, and probably Mr. B. F. Price will at the same time commence the erection of the steeple on the Royal street front. The topping off ceremonies in connection with the completion of the southern extremity of the east wing, that part to be used by the Sun Engine Company, will take place next Saturday afternoon.

THE EAST ALEXANDRIA RAILROAD. -The engineers employed in locating the East Alexandria Railroad are busily engaged in their work. The road will run from Bladensburg,on the Washington branch of the B. & O. R. R. to 'Possum Hall, opposite this city, a distance of fourteen miles, in which there will be but eleven curves; and an easy grade up the Maryland heights has been found by following the course of Oxen Run. The connection with this city will be made by steamers, which will ply between a wharf extending from the Maryland shore to the channel of the river and the foot of Wilkes street.

TRAIN DETAINED. -The through train from the Southwest that arrived here at 6:20 yesterday evening did not leave for the North until 7:55 because the accommodation train for Quantico, due here at 6:05 had not arrived, and by regulation of the B. & P. R. R. the train could not proceed until special orders were received from Washington. The train was crowded, and many of the passengers bound for the West who had obtained by telegraph berths in the sleeping car attached to the train that leaves Washington at 7.45, were compelled to lay over in Washington until 3 p. m. to-day.

THE YACHT FANNIE BELL.—The yacht Fannie Bell, which will run a race to-morrow with the John T. Given, from Washington to Fort Washington and return, was lying in the oyster dock this morning, having her rigging overhauled and made ready for the contest. She is a trim looking little craft, and her appearance was much admired by the many who visited the wharf to see her. Though belonging to a a young gentleman of Washington, she was entered in the proposed race by Mr. Terry Ryan, of this city, for \$200, and will be sailed by Capt. George Laycock, also of this city.

THE TUG KEYSTONE.—The new tug boat Keystone, lately built here, was this morning towed up to the Arsenal wharf, the crane on which was used in the adjustment of her boiler, which was also manufactured here, after which she was towed back again and into the dock at Lambert's wharf, near the machine shop of Mr. W. S. Moore, who made and will put her engine in position.

RAILROAD SPEED. - As complaints of the speed at which the trains of the A. & F. R. R. are run through the city have been made to the Mayor, that officer has by letter informed the authorities of the road that an ordinance of the Corporation prohibits the passage of railroad trains through the city at a greater rate of speed than five miles an hour, and requested them to see that in future the subordinates respect this ordinance.

CHEERING. - It will be gratifying to all interested in the city's welfare to learn that the financial condition of the Corporation is better now than it has been for years, and that the prospect for a still further improvement is so bright that a reduction of at least 25 per cent. upon the present taxes is contemplated for next year's assessment.

FLEET IN THE RIVER.—The fleet of coasters heretofore reported in the river, have commenced to arrive, but slowly, and if the prevailing calm weather shall continue, it will be some days yet before the last of them can be

SALUTE. -The cannon Nellie Grant, belonging to the Radical Club, will, from present indications, be as famous as was once the "Coon Killer." It was out again last evening and fired a salute for the late Radical victory in Maine.

A brakesman on the O., A. & M. R. R. named Richard Tomlinson, was tripped by a passenger while the train for Lynchburg was passing one of the Pope's Head bridges, yes-terday morning, and falling, had his head badly cut by one of the bridge timbers. He saved himself, however, by holding on to the hand rail, and was sent back here on a freight train, and is now improving.

The bar keeper in Kraig's lager beer saloon, in the City Hotel building, while drawing a glass of lager this morning, was considerably alarmed by a tremendous crash all around him, made by the falling of the ceiling. He had served in the war and for a time thought a bumb-shell had "busted."

Owing to a jam at Georgetown yesterday, to the washing out of two lock gates in the C. & O. Canal, and to the low water, the arrival of boats for the last twenty-four hours has been considerably interrupted. This evening, however, they are again arriving freely.

Young Mr. Louis Cazenove while playing at the residence of Mr. Cassius F. Lee, on Seminary Hill, last Saturday night, accidentally fell from a pile of lumber and had his head and eye badly hurt. Dr. McCormick rendered the necessary surgical assistance.

The distillery at Cameron Run and that at Fishtown will have the repairs now in progress upon them completed by the end of the month and will commence operations probably by the first of October.

SPECIAL NOTICES.

ANOTA VOID THE PERHS OF THE SEASON .-Autumn, attnough the most radiant portion of the American year, has its drawbacks. The heavy evening dews and morning vapors and the great disparity in temperature between the the great disparity in temperature between the night and day, give rise to many painful disturbances of the bowels, such as colic, cholera morbus, diarrhosa and dysentery. The digestive organs are also unfavorably affected by the change of season, and dyspeptos generally suffer most severely during the fall. Derangements of the liver are likewise common, and miasmatic fevers prevail in newly-settled districts and lowlying and marshy localities. These unpleasant contingences of the season are not however unavoidable. By strengthening, toning and regulating the system with Hostetter's Stomach Bitters even the most delicate may escape them. At the expiration of summer all the bodily powers are in a somewhat exhausted state. They require the wholesome stimulation which this genial vegetable invigorant supplies. Under its renovating influence the nervous energy which the wilting heat of July and August had kept in abeyance or partially extinguished, crops out afresh; the flaccid muscles recover their elasticity; the appetite takes a sharper edge; the processes of digestion and assimilation become more rapid and perfect; the spirits rise, and the whole organization acquires its maximum of activity and resistant power. Even persons of compara-tively fee ble constitutions, when thus fortified against the perils of the season, will have little cause to fear a visitation from any of the disorders to which we have referred. As a protec-tion against miasmatic fevers and all epidemics engendered by malaria Hostetter's Bitters may be justly pronounced not only unrivalled but unapproached. Look well to the label and trade mark, as there are many counterfeits and sep 9-colw imitations in the market.

TO NOT DESPAIR. - Hundreds of cases of Scrofula, in its worst stages, old cases of Syphilis that have defied the skill of eminent physicians, rheumatics who have been suffering for years, and the victims of the injudicious use of mercury, have been radically cured by Dr. Tutt's Sarsaparilla and Queen's Delight. It is the most powerful alterative and blood purifier known. It is prescribed by many physicians in their practice.

If you have Chills, whether every other day, every tenth day, or every two or three weeks, take Dr. Tutt's Liver Pills, and you will check them; otherwise, they will stick to you all winter.

A number of prominent Democrats held a meeting this morning to revise an address to be delivered to Charles O'Conor, urging upon him the absolute necessity of accepting the Louisville nomination. A deputation from the meeting will wait on Mr. O'Conor this after-

The engine was badly crushed. John Curtis, engineer, jumped off and was badly bruised. The fireman remained on the engine and escaped uninjured. No passengers were injured. The front platform of the baggage and smoking cars was crushed. The passengers and baggage were referred to another without much delay. The track was cleared at midnight and trains are running as

Immigrants.

NEW YORK, Sept. 11.-The Immigration Commissioners make a report of their findings in reference to the case of the emigrant ship Charles H. Marshall, showing the perpetra-tion of fearful cruelties to passengers on that ship on her last trip to this city at the hands of the insubordinate undisciplined crew, the captain having died on the voyage. The Commissioners invite the attention of the Federal government to the fact that it rests with them to protect immigrants in transit.
